Office Action Summary

Art Unit: 3624

DETAILED ACTION

1. Claims 1-51 have been examined.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-51 are rejected under 35 USC 103(a) as unpatentable over Friedland(US Pat. No: 6,449,601) in view of McGovern(US Pat. No: 5,978,768).

4. As per claims 1-51 Friedland teaches a method of decentralized e-commerce(Abstract) comprising conducting auctions over the Internet(Fig 4) for the sale of merchandise(Fig 7/710/716) and offering the user the opportunity to purchase the merchandise(Fig 7/726) for auction(Fig 6/622/606). Friedland also describes the merchandise by price(Fig 8/808) as well as a means offered to the user to purchase the merchandise(Fig 8/818) as well as rejecting the bids that do not meet a minimum bid threshold(Fig 8/806). McGovern teaches wherein the portal tagging standard requires tags for name,address,education(Fig 29/2330) and experience(Fig 29/2330) and job classification(Fig 6)(Fig 12)(Fig 23) as well as providing a link to the matching content(col 9 line 27-col 10 line 65). It would have been obvious to one skilled in the art at the time of the invention to combine Friedland in view of McGovern to teach the above. The

Art Unit: 3624

motivation to combine is to teach a system for matching a bidder with an item(job) as enunciated by McGovern(col 3 lines 44-52).

Claim Rejections - 35 USC § 101

5. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

6. Claims 39-46 are further rejected under 35 USC 101 as failing to provide a concrete, useful and tangible output. A computer medium with code by itself defines no functionality.

Conclusion

7. **THIS ACTION IS MADE NON-FINAL.**

8. Any questions concerning this communication should be addressed to the examiner of record, Dr. Geoffrey Akers, P.E., who can be reached between 6:30 AM and 5:00 PM Monday through Friday at 703-306-5844.
